- Reads from 5-angles
- Unmatched level of precision with readings
- Calibrated to work exclusively with
  - YoCoat Basecoat Color System and
  - YoCoat Color Software
- Formula recalculation delivers unprecedented results

# YoCoat

## CHROMATIC COLOR TOOL

Our Chromatic Color Tool has over 6,800 color swatches of actual paint spray-outs from our formulas. This tool alone can shave up to 30 minutes off the matching process, while producing a highly accurate color match.

All swatches are organized chromatically by color groups and effects.

## COLOR MATCHING SOFTWARE

Our YoCoat Color Software has been designed to be effective, efficient and user friendly.

YoCoat's color database is updated weekly via the internet to ensure you have the most up to date to formulations available at your finger tips, enabling you to match colors for all Asian, European and US brands.

Our state-of-the-art European technology allows us to match more than 150,000 colors with less toners (only 59) than most other systems!

## SPECTRO SOFTWARE

Our state-of-the-art Spectro Software works perfectly with our Spectro and our color mixing software! We've worked hard to make it easier for you to get to that best possible match in minutes. You can process more jobs, more efficiently and effectively and that can mean more money in your pockets.

- Automatically push Spectro reading from the camera to the software
- Spectro Software will produce the best possible formulas for you to get a blendable match
- Spectro Software can also automatically make adjustments to a selected formula to produce an even closer match for the specific color that's been read using the Spectro
- Seamless integration between our color mixing platform and automatic paint dispenser

## BASECOAT

3.5L | CASE QTY = 2  
1L | CASE QTY = 3

YoCoat Basecoat is a solvent-based color system that's been designed to deliver amazing color matching and awesome coverage at incredible prices. Our database includes more than 150,000 colors, so you're guaranteed to get a match, every time! All of this from only 59 toners!

With YoCoat Basecoat, you'll be putting more money back into your pockets and delivering better results for your business and your customers!

## DTM PRIMER-SEALER

#PR50-3.5 | 3.5 Liter | Case Qty = 2

Versatility is the name of the game with PR50 DTM Primer. This amazing formulation allows for total flexibility in application – it can be a primer-filler, a primer-sealer or can even be used as a full wet-on-wet sealer! All it takes is a simple adjustment in mixing ratio and you can have the exact product you need.

Hardener required: H2F-1 (Fast)

## 4:1 CLEAR COAT

#CL40-G | 1 Gallon | Case Qty = 4

The last Production Clear you'll need! CL40 will deliver high-quality finishes while leaving a ton of money in your pockets. This 4:1 clear will keep you and your customers happy time and time again.

Hardeners Required: H4S-Q (Slow), H4M-Q (Medium)

## 2:1 CLEAR COAT

#CL20-5 | 5 Liter | Case Qty = 4
